Polydoxy: Theologies of the Manifold

[Poly=many; doxy=opinion or doctrine]

What is polydoxy? It is the topic of the 9th Drew Transdisciplinary Theological Colloquium, Oct. 2009.

A Dictionary of Continental Philosophy

For the philosophical backdrop to theologies of multiplicity, diversity, plurality—in creative tension with the oneness implicit in the “mono-” of monotheism—see especially the article here on Poststructuralism.

The Encyclopedia of Time

How can time fit into the pages of a reference book? Maybe because things are not as fixed as they seem. See the article here on “Becoming and Being” [and note which has priority!]

The Blackwell Companion to the Theologians

Theology guided by notions of plurality and becoming is likely to both value process and itself *be* in process. Proceed to the article, “Process Theology,” in this spanking new encyclopedia (2009) from Wiley-Blackwell publishers.

The World’s Religions: Continuities and Transformations

Religions in the 21st century blend and bleed into each other even more than in the past. See “Syncretism” in this encyclopedia.

Encyclopedia of Religion and Nature

Polydox religion partners with, rather than dominates, nature. All the religions appear in this work, but note especially Confucianism.

Encyclopedia of Disability

When religions rethink themselves more pluralistically, categories and boundaries change. Disabilities become diversities. See “Religion”.
