RESOURCE PAGES FOR REMOTE TEACHING, LEARNING AND WORKING

There is a new landing page for three collections of resources that have been, and will continue to be, in development since Drew moved to Virtual Time in March. The main landing page can be found at bit.ly/DrewRemote.

There are resource pages split by remote activity:

➢ Teaching Remotely: bit.ly/DrewRemoteTeach
➢ Learning Remotely: bit.ly/DrewRemoteLearn
➢ Working Remotely: bit.ly/DrewRemoteWork

Please note that the capital letters are required in these convenience links.

Each of these pages identifies resources to support you in the various activities that may be required as we approach the Fall and continue to learn and prepare through the summer. As you will see on each page, we invite you to reach out if you have requests or resources that you think should be shared here. Simply email helpdesk@drew.edu with any questions or suggestions, including the relevant links.

We hope you find these lists helpful as we navigate the upcoming months and beyond!

EMPLOYEE APPRECIATION

We appreciate the following team members for their dedication and flexibility during these uncertain times: Scott Barone, Paul Coen, Christian Izurieta, Craig Mileham, Ian Davis, Terryl Wilson, Onose Ugbenin, Bella Alderton, and Matt Acosta. Your presence on campus has allowed us to better serve the community these past few months.

THANK YOU!

HELPFUL LINKS
