

Technology Help and Information

Search Technology Help

Welcome to Drew's **Technology Help and Information** space on U-KNOW. Use this space to locate information on technology services offered at Drew.

For more information, including service hours and contact information, please visit the [Drew Instructional Technology](#) or [University Technology](#) websites.

You can also call the UT Service Center during business hours with any questions or to open a service ticket at 973-408-4357 (HELP).

Outside business hours (and inside - we won't judge!), you can email helpdesk@drew.edu or fill out a support request at help.drew.edu.

Common Student Questions

[Passwords and Logging In](#)

[Connecting Your Mobile Devices to Google Apps](#)

Microsoft Office Installation Instructions (you must be logged in to see these pages)

- [Students](#) - available for free to current Drew students
