

Drew University Zoom Video and Web Conferencing

University Technology provides access and training in using Drew Zoom web conferencing. All of these services are covered by the classroom hotline and MRC Event Hotline for academic classes and other events respectively.

What is Zoom?

Zoom is a web conferencing tool that unifies cloud video conferencing, online meetings, and collaboration into a single intuitive platform. Zoom's extensive feature set, broad compatibility with desktop and mobile devices, and multi-layered security allow Drew University to have rich web conferencing experiences with both campus affiliated and unaffiliated users.

To request a host account:

Call the University Technology Service Center at 973-408-4357 or create a ticket at [Open a Support Ticket](#). The MRC will create a host account for you, send you a link for documentation and provide user support.
