

PsycInfo Database Tipsheet

This database covers scholarly materials from 1872 to the present.

- [Search](#)
- [Thesaurus](#)
- [Search Results](#)
- Email, save, print results from your folder
- Find a specific citation and find citing articles
- Contact a librarian for more help

Access this page: <https://uknow.drew.edu/confluence/x/YpVjAQ>

Search

- Type in a query or search statement. Use the separate search boxes to enter different concepts.
- For searches with more than three concepts, click on the + icon to add a row.

Boolean Search tips

- to search as a phrase, use ". For example: **"online social networks"**
- to connect synonyms, use OR. For example: **facebookOR "social media"**
- use AND to connect concepts. For example: **facebook AND "social engagement"**
- truncate endings of words with an *. For example: **engag*** finds **engage; engages; engagement; engaging**
- If you only have a single search box and want to do a complicated search string, use (). **"social engag*" AND (facebook OR "social media"*)**. This is called nesting by librarians.

Searching: **PsycINFO** | [Choose Databases](#)

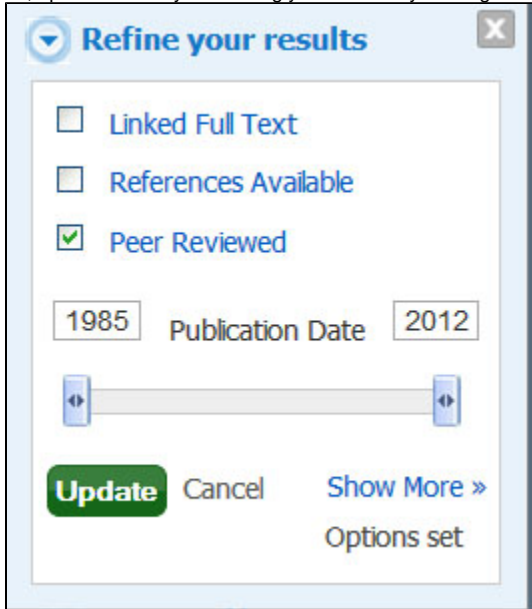

"social engag*"	Select a Field (optional) ▾	Search	Clear
AND ▾	facebook OR "social media"	Select a Field (optional) ▾	
AND ▾		Select a Field (optional) ▾	+ -

[Basic Search](#) [Advanced Search](#) [Search History](#)

Before searching, choose limits from the default search page by scrolling down. Useful options include: *Publication Type*; *Age Group*, *Language* and *Methodology*.

<div><div>All</div><div>All Journals</div><div>Peer Reviewed Journal</div><div>Peer-Reviewed Status-Unknown</div></div> <div><div>All</div><div>Childhood (birth-12 yrs)</div><div>Neonatal (birth-1 mo)</div><div>Infancy (2-23 mo)</div></div> <div><div>All</div><div>General Public</div><div>Juvenile</div><div>Psychology: Professional & Research</div></div> <div><div>All</div><div>Classic Book</div><div>Conference Proceedings</div><div>Handbook/Manual</div></div>	<div>Publication Type</div> <div>Age Group</div>	<div>English</div> <div>Language</div> <div>Population Group</div> <div>Document Type</div> <div>Methodology</div>	<div><div>All</div><div>Afrikaans</div><div>Arabic</div><div>Bulgarian</div></div> <div><div>All</div><div>Human</div><div>Animal</div><div>Male</div></div> <div><div>All</div><div>Abstract Collection</div><div>Bibliography</div><div>Chapter</div></div> <div><div>All</div><div>CLINICAL CASE STUDY</div><div>EMPIRICAL STUDY</div><div>-Experimental Replication</div></div>
--	--	--	---

Or, opt for limits anytime during your search by clicking on "**Show More>>**" **Refine your results** box on the left hand side of the search page.

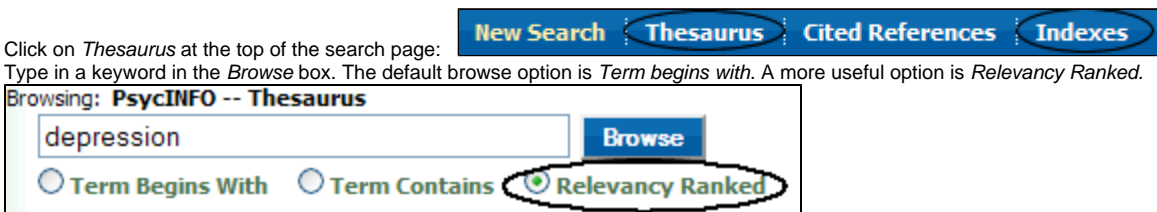

The "Refine your results" dialog box has a title bar with a dropdown arrow and a close button (X). Inside, there are three checkboxes: "Linked Full Text" (unchecked), "References Available" (unchecked), and "Peer Reviewed" (checked). Below these is a "Publication Date" range from 1985 to 2012 with a slider. At the bottom are "Update" (green), "Cancel", and "Show More >>" buttons, with the text "Options set" below "Show More >>".

Thesaurus

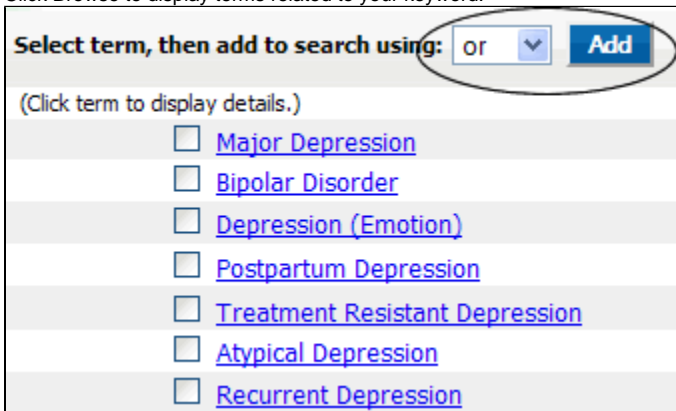

Psychology uses very specific language and the Thesaurus provides an easy access to this APA (American Psychological Association) terminology.

- Click on *Thesaurus* at the top of the search page:
- Type in a keyword in the *Browse* box. The default browse option is *Term begins with*. A more useful option is *Relevancy Ranked*.

The Thesaurus interface has a top navigation bar with "New Search", "Thesaurus", "Cited References", and "Indexes". Below, the "Browsing: PsycINFO -- Thesaurus" section contains a text box with "depression" and a "Browse" button. Three radio buttons are below: "Term Begins With", "Term Contains", and "Relevancy Ranked" (which is selected and circled).

- Click Browse to display terms related to your keyword:

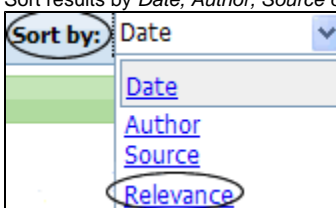

The "Select term, then add to search using:" dialog has a title bar with "or" and "Add" buttons. Below the title is the instruction "(Click term to display details.)". A list of terms with checkboxes is shown: "Major Depression", "Bipolar Disorder", "Depression (Emotion)", "Postpartum Depression", "Treatment Resistant Depression", "Atypical Depression", and "Recurrent Depression".

- Click multiple terms to add them to your search.

Search Results

- Sort results by *Date*, *Author*, *Source* or *Relevance*:

The "Sort by:" dropdown menu shows "Date" as the selected option. The dropdown list is open, showing "Date", "Author", "Source", and "Relevance" (which is circled).

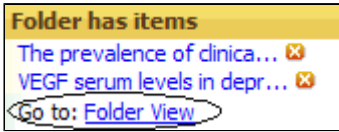

- Click on the quick view icon  to see a short summary of each article.
- If there is no  [HTML Full Text](#)  [PDF Full Text](#) available for an article, click on the [Search for Article](#) icon  to find full text from another source. If Drew doesn't provide access to the full text of an article, request that article via [InterLibraryLoan](#). Email, save, print results from your folder

- Click on [Folder View](#) to access your folder: 
- Use the print, email, download or export icons from your folder. 

Find a specific citation and find citing articles

- From the default page, click on [Cited References](#): 
- Search by a *Cited Author*, *Cited Source*, *Cited Title* or *Cited Date*:

Cited Author: <input type="text" value="last name, first initial(s)"/>	Cited Title: <input type="text" value="title of an article"/>
Cited Source: <input type="text"/>	Cited Date: <input type="text"/>
All Citation Fields: <input type="text"/>	
- To find articles that cite a specific article, check the box next to the article, and click [Find Citing Articles](#):

<input checked="" type="checkbox"/>	1. "Thomas, J. L. (1999). Personality and motivational predictors of military leadership Training Corps. Unpublished doctoral dissertation. Wayne State University, Detroit,
