

Citation Searching in Web of Science & Knowledge

The Web of Science and Knowledge is the electronic version of the original citation index. It works by searching across the bibliographies of all the articles in a **defined set of journals**. It is particularly good for:

1. Finding journal articles that cite a particular source
2. Finding out how many times a particular source or author has been cited in well-regarded journals.

It's not particular good for:

1. Finding books that cite a particular source
2. Finding citations outside the core areas, especially outside the sciences, even though there are social science & arts and humanities portions of the database.

How to do the search

1. After getting into Web of Science from the Subject Databases pages, choose "**Cited Reference Search**" from the list under the "**Web of Science**" tab.

The screenshot shows the Web of Science homepage. At the top, the 'Web of Science' logo is visible. Below it, there's a 'Select a database' dropdown menu set to 'Web of Science Core Collection'. Underneath, there are four tabs: 'Basic Search', 'Cited Reference Search' (which is highlighted with a red box), 'Advanced Search', and '+ More'. Below the tabs is a search input field with the placeholder text 'Example: oil spill* mediterranean' and a 'Topic' button. Further down, there's a 'Timespan' dropdown menu set to 'All years (1975 - 2019)' and a 'More settings' link.

2. In the first box of Step 1 (the one identified as cited author, type in the last name of the author of the cited work, followed by the author's first initial and an asterisk: **Windfelder T**
3. If you know the journal abbreviation for the journal the article appeared in (use the journal abbreviation list) and or the dates when it appeared, enter them next to Cited Work and Cited Years.

The screenshot shows the 'Cited Reference Search' form. At the top, there's a 'Select a database' dropdown menu set to 'Web of Science Core Collection'. Below it, there are four tabs: 'Basic Search', 'Cited Reference Search' (which is highlighted with a blue underline), 'Advanced Search', and '+ More'. Below the tabs, there's a section titled 'Find the articles that cite a person's work.' with a red arrow pointing to the 'Cited Author' field. The 'Cited Author' field contains the text 'Windfelder T'. Below it, there's a 'Select from Index' link. The 'Cited Work' field contains the text 'Example: J Comp* Appl* Math*'. Below it, there's a 'Select from Index' link and a 'View abbreviation list' link. The 'Cited Year(s)' field contains the text 'Example: 1943 or 1943-1945'. Below it, there's a 'Cited Year(s)' dropdown menu. At the bottom right, there's a 'Search' button and a '+ Add row | Reset' link.

Be aware that not all articles will be cited correctly, and that not all journals or books have standard abbreviations. Feel free to leave the Cited Work and Cited Years blank.

4. Click on the Search Button.

5. The system will display a list of possible cited works. You need to **select the check boxes for the correct one(s)**.

Web of Science

Search Tools Search

Cited Reference Search
Find the articles that cite a person's work.
Step 2: Select cited references and click "Finish Search."
Hint: Look for cited reference variants (sometimes different pages of the same article are cited or papers are cited incorrectly).

CITED REFERENCE INDEX
References: 1 - 13 of 13

Showing results per page

* "Select All" adds the first 1000 matches to your cited reference search, not all matches.

Select	Cited Author	Cited Work [Expand Titles]	Title [Expand Titles]	Year	Volume	Issue
☐	CAINE, NG...WINDFELDER, TL + [Show all authors]	ANIM BEHAV	FACTORS AFFECTING THE RATES OF FOOD CALLS GIVEN BY...	1995	50 Part: 1	
☐	Mitani, JC...Windfelder, TL + [Show all authors]	BEHAV ECOL SOCIOBIOL	Predatory behavior of crowned hawk-eagles...	2001	49	2-3

6. These are listed by tiny snippets of the journal information, plus the number of citing articles. To see the full citation for just one, click on "View Record" in the View Record column. However, to see all the citations, click on the "SHOW EXPANDED TITLES" link at the top of the Cited Work column.

☐	WINDFELDER TL	AM J PRIMATOL		2002	56		65		1
☐	Windfelder, TL	AM J PRIMATOL	Observations on the birth and subsequent care of...	2000	52	2	107	DOI: 10.1002/1098-2345(200010)52:2<107::AID-AJP5>3.0.CO;2-M	16
☒	Windfelder, TL	ANIM BEHAV	Interspecific communication in mixed-species groups...	2001	61 Part: 6		1193	DOI: 10.1006/amb.e.2000.1701	19
☐	WINDFELDER TL	POLYSPECIFIC ASS INT		1997					1
☐	WINDFELDER TL	THESIS DUKE U		1997					2
☐	WINDFELDER TL	THESIS DUKE U DURHAM		1997			1		1
☐	WINDFELDER TL	THESIS DUKE U DURHAM		1997					3
☐	WINDFELDER TL	THESIS DUKE U N CARO		1997					1

7. Once you have clicked the check box for all the cited works you want to follow up in the list, click the **Finish Search** Button.
8. The results list will show you all the works that have the works you chose in their bibliographies.
